6 INFO PAGE

The information page on the app allows users to enter the details of a specific artist and their work. This allows the app to calculate and workout the exact piece of work.

Once the details have been entered, the app will move on to the next page where the art work would displayed. As well as that, the information about the work would be written $ underneath. It would contain all the small details. ~~from time~~

4 USER DESTINATION

The user destination page is in the page in order to allow the user to enter their given destination. Also, this page has a search bar, and a dropdown ~~nan~~ menu which allows the user to search and look for other nearest museums. Once the user is happy they can then press the 'Go!' button.

7 ACCOUNT PAGE

The account page containing all the information about the user such as their name, email address and past visits. On the same page, ~~there a~~ the reviews of each and every place would be displayed and the app would allow you to edit any information which you wish to change.
